Attention Notice #4

Dear Sirs,

I am writing to you to voice my opinion in favor of option #2-51-49 standard of flavored Malt Beverages. Several reasons for my opinion are as follows:

1. Fairness to all producers of these products. Only the big brewers may be able to afford the research. and development of the proposed 0.5 % standard.
2. I am a salesman who earns my income through commissions. The dire 0.5 % option poses a real threat to the integrity of the products currently in the market and could create higher prices. turning consumers away, and posing a threat to my salary.
3. The product is approved as a malt beverage and taxed and priced accordingly. To make a change toward the spirit segment would make no sense.

Please support Option #2 in continued success of these products

Thank You
