Re: TTB Notice 41

I am writing in opposition to the proposed label requirements, as they would be applied to wine.

My reasons for this opposition are as follows:

1. The vast majority of consumers don't care about the nutritional aspects of wine - they consume it for taste.
2. Each lot of wine will require extensive, expensive analysis to determine the nutritional and allergen content. The costs associated with these analyses will pose an unbearable financial burden, especially to small producers.

Thank you,

A handwritten signature in black ink, appearing to read 'A. B. Kennedy', written over a light gray rectangular background.
