Comments=We strongly support the proposed expansion of the Russian River Valley Viticultural Area. In particular, the proposed expansion corrects previous illogical boundaries which excluded areas on the south side of the Bodega Highway from areas on the north side, which are currently in the Russian River viticultural area. Both sides of this road have identical climates with cool temperatures and fog intrusion; defining elements of the Russian River viticultural area.

Thank you.

Comments=I support the proposed expansion of the Russian River Valley Viticultural Area. The new region takes into account more accurately the natural boundaries of the unique climate of the Russian River Valley viticultural area.
